Patent No. 5968751
GENERAL INFORMATION:
APPLICANT: GELIFIN, John H.
APPLICANT: MESTERS, Rolf M.
TITLE OF INVENTION: Serine Proteas
TITLE OF INVENTION: Anti-Peptide A
TITLE OF INVENTION: Tor Inhibiting
NUMBER OF SEQUENCES: 10
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              US-08-955-471-1
                                                                                                                                                                                                                                                                                                                                                   721
                                                                                                                                                                                                                                                                                                                                                                                                      781
